## **PERSONAL PROFILE**

After several years of working in the Transport industry, at the age of 26 years old, I began my educational journey towards becoming a secondary school teacher of Computing. I am passionate about the use of computers in education and truly believe my enthusiasm and knowledge will enable me to be inspirational. I am somebody who strives to be adaptable, hardworking, a confident communicator and listener with a positive and compassionate attitude towards others.

**OVERVIEW OF SKILLS**

---

**Customer Service/Communication:** Throughout my career both in retail and lorry driving, I have had to interact with both customers, off-site and office staff. This has enabled me to gain a high level of communication skills and experience dealing with people from different environments. This has developed my problem solving and evaluation skills and ability to reflect on situations that arise.

**Leadership Skills:** My time as a manager at Domino's has enabled me to develop my skills and ability to manage groups of people in a high-pressured environment. My time at University has also renewed my recognition of the importance of teamwork and has given me the chance to improve and demonstrate my leadership skills on various group projects.

**Technical Skills:** I have a very good knowledge of basic ICT literacy skills and have begun to advance my computing skills in areas such as coding, testing, database, software, high/low level requirements.

**INTERESTS**

---

I have a keen interest in music and am currently taking Piano Lessons. I have also recently started taking an interest in health/fitness.
